*\* Statistics based on RER Top 100 of 2013, released May 2014 and IRN Top 100 of 2013, released June 2014*

## About Wynne

Wynne is a global software company producing rental equipment software and tools for a variety of sectors. Established in 1989, Wynne recognized the need for a truly complete enterprise resource planning solution, and committed itself to developing software that would meet the rapidly evolving and growing needs of the equipment industry. Today, Wynne is now in 37 countries, serving over 3,500 locations.

# Building the Ultimate Rental Experience

Wynne developed RentalMan with the goal to create an experience that's unforgettable for our clients, and their clients in turn. Wynne's completely robust ERP solution makes it easy to configure a system that meets your business needs, while incorporating the latest in technology.

In addition to developing turnkey software suites, we provide both on-site and help desk assistance. Our knowledgeable Customer Care staff is available for support 24 hours a day, 7 days a week.

## **Some of the largest companies worldwide trust the innovative and reliable RentalMan software to keep their businesses running smoothly.**

This solid history enables Wynne to truly understand the industry and develop timely products that exceed clients' expectations and keep them on top of industry trends. Our key relationships with innovative business partners deliver the latest in technology for our clients, such as telematics and fuel management. These sophisticated solutions give your company the right tools—at the right time—to stay on top of your industry.

The Wynne team is comprised of many former industry professionals, who have served out in the field or in management. This long history and familiarity with how the industry works has served to better understand our clients' struggles, and how we can better develop our product to overcome them.
